SOFTWARE

3D & rendering

Blender / Cycles
Autodesk 3ds Max
Corona Renderer
Autodesk Maya

Texturing & finishing

Substance Painter
Adobe Photoshop
Adobe Premiere Pro
Adobe After Effects

EXPERTISE

Architectural visualization
Product modeling
Texturing & shading
Lighting & rendering
Camera & product animation
Post-production

SUPPORTING SKILLS

Character animation / Rigging
Video editing / Motion graphics

EDUCATION

Diploma in 3D Animation
Arena Animation, Dadar
2023

PROFILE

3D visualization artist focused on photorealistic architectural environments, product renders, and cinematic walkthroughs. Combines detailed modeling, considered lighting, and realistic materials with clear composition and polished presentation.

SELECTED PROJECT EXPERIENCE

01 Residential Township

ARCHITECTURAL VISUALIZATION

- Built a **50+ asset** residential environment in Blender and Cycles, delivering a **4K cinematic walkthrough in five weeks.**
- Developed buildings, landscaping, roads, and amenities; handled materials, lighting, scene assembly, and camera animation.

02 Warm Walnut & Travertine Spa

RESIDENTIAL INTERIOR STUDIES

- Created bedroom and bathroom studies with walnut, leather, linen, and travertine finishes, focusing on material scale and lighting.
- Combined Blender scene setup with AI-assisted image refinement for presentation views, material close-ups, and day/night variations.

03 Product Visualization & Animation

PRODUCTS / PACKAGING / PROPS

- Modeled, textured, and rendered products including perfume, footwear, and packaging for still images and animation.
- Developed studio lighting, realistic surface finishes, and camera compositions to communicate product form and detail.
